

What is a disability?

Some women have a disability.

It can be different for every woman.

Sometimes you can see a disability.

Sometimes you can **not** see a disability.

A disability can make it hard to do things. Like

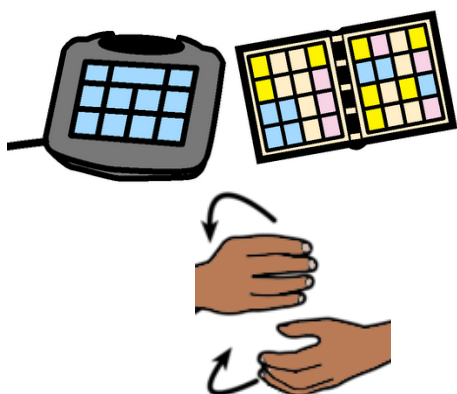

- it is hard to walk. You may need to use

- a wheelchair

- a scooter

- a walking frame

- it is hard to talk. You may need

- a communication board

- to use sign language

- to use objects and photos.

Or

- it is hard to learn. You may need
 - the task in tiny steps
 - to try a new task many times to know it
 - to learn things important to you every day.

A disability can also be when

- it is hard to see
You may need a seeing eye dog

- it is hard to hear
You may need a hearing aid.

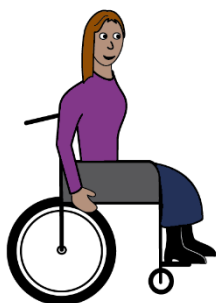

It may be hard to think in a clear way.

Sometimes you can **not** see a woman has a disability.

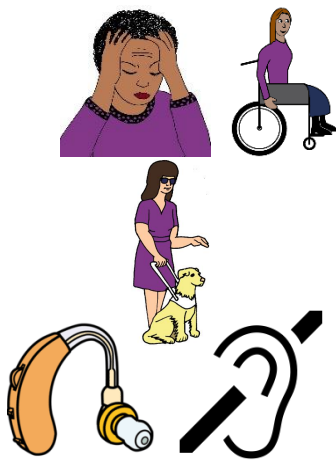

Some times you can see a woman has a disability.

We will use this picture to talk about all women with a disability.
