**Now.**

Click the **About WWDA** button.

Read **About us**. It is in Easy English.

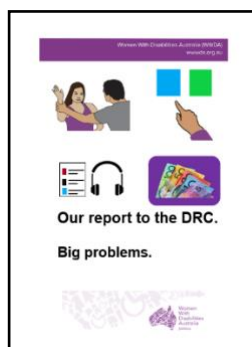

These ideas are in all our reports to the Disability Royal Commission.

We write **DRC** when we talk about the Disability Royal Commission.

These are our ideas for big changes.

Read **Our report to the DRC. Big problems** It talks about all the big problems in your lives.

## Ideas for change

### 1. To be safe from violence

The government must have a group to look at

- violence to women and girls with disability
- and**
- how to stop the violence.

We need to be part of this group.

We can talk about ideas to fix the problems.

This is 1 of our ideas.

There is a service to check you are safe.

They check you

- have food

- are clean

- are safe.

The staff talk to you on your own.

You feel safe to talk.

## 2. To know about all women and girls with disability

The government needs to know about all kinds of disability.

And

The big problems women and girls with disability can have. Like

- violence
- the right to choose
- money.

They must include women in every thing. Like

- talks about people with disability
- plans for people with disability.

Women and girls with disability get a say.

The government must look at things now.

**Then**

They must look at it later.

More women and girls with disability must be  
in all plans.

### 3. To get information the way you need it

There is a plan.

Each place does what the plan says.

You get information in the way you need. Like

- Easy English
- so you can hear it
- a different language.

You can get information in

- Auslan
- Braille
- Large print.

**4. Women and girls with disability have the right to make your own choice**

You make your own choices.

**Or**

You get help to make any choice.

You can use a disability advocate.

## 5. You have the money to live

The government must pay **more** money to people with disability.

It needs to be each week.

## 6. To get the right NDIS help

The way to ask for NDIS help needs to change.

There need to be clear steps about what to do.

The NDIS need to listen to people who know you well. Like

- your doctor
- your therapist.

All people with disability need to get the NDIS.

These ideas are based on information in all the Women With Disabilities Australia reports to the Disability Royal Commission. 2020.
